THE BEST IN TURF CARE

Improved because it is now granular. UREA FORM TURF FOOD is clean, easy to apply and reliable as ever. The most important advantages are the assurance of a balanced formula with quick greening and long feeding through Urea-Form nitrogen. 25 lbs. (covers 5000 sq. ft.) $3.95; 50 lbs. (covers 10,000 sq. ft.) $7.45.

A balanced Turf Food combining the long-lasting Urea-Form nitrogen and the new Banvel D weed killer. The results are thicker green grass, and the elimination of a wide range of broad-leaf weeds such as dandelion, plantain, chickweed, knotweed, spurge, henbit and many others. 20 lbs. (covers 5000 sq. ft.) $5.95.

Crab grass and other weed seeds are prevented from germinating with Daithal, which has proven effective and safe. The growth of desirable turf grasses is stimulated with Urea-Form balanced Turf Food, thereby discouraging future weed growth. 15 lbs. (covers 2500 sq. ft.) $6.95.

Chesapeake Red Clover. A superior, longer-lived strain of Red Clover adapted to areas where anthracnose diseases are prevalent.

Ladino Clover

A perennial for poor soil; withstands droughts and gives two or more cuttings per season after the first year. Cut when a foot high.

Field of Clover
